- **♦ Regional centres and** networks;
- **♦ Relevant international** initiatives and processes
- Training sessions tailored to different audiences;
- Online user services;
- Dedicated helpdesk;
- User forum

## User services (including capacity

building and training)

- (Distributed) Web portal; Printed summary
- products:
  - CDs;

Delivery platform

Regional **Climate Data** and Scenarios **Facility for Asia and the Pacific** 

Data and scenario products

Documentation and guidance notes

- ♦ National hydromet services:
- **♦ Climate modelling centres;**
- **♦** Other partners engaged in relevant initiatives
- Observational data:
- CMIP3-based data and scenario products;
- **CMIP5-based products** (including CORDEX outputs, statistically downscaled products,...)

- Climate modelling centres:
- **♦** Regional centres and networks:
- **♦ Relevant international** initiatives and processes

- Evaluation of model performances in Asia and the Pacific;
- Technical notes on the methods, source data, uncertainties and caveats associated with the data and scenario products;
- User guidance, including case studies of good practices

- Climate scientists;
- **♦ Impacts and vulnerability** assessor;
- **♦** Adaptation practitioners

## Changes in Period-Mean Annual Precipitation and Temperature: (112 projections, evaluated at 2040-69 relative to 1970-99)
