Fostering Adaptation Knowledge Sharing (Part 1)

Q What mechanisms and incentives can be created to encourage regional knowledge sharing and interaction through Platform?

Climate Change Community

The mechanism to encourage knowledge sharing include the following :

- Ç **Awareness and sensitization on regional knowledge sharing opportunities:**
 - Ç It is essential to make stakeholders aware of existence of regional knowledge sharing platforms.
 - Ç Sensitizing the stakeholders on the importance of regional knowledge sharing and making them aware of the benefits is essential.

Capacity building of network partners

- Ç Both financial and human capacities of network partners needs to be strengthened
- Ç This will facilitate utilization of the platform for regional knowledge sharing.
- Ç **Greater coherence and integration of information systems:** Developing Standard knowledge sharing practices, regular meetings and forums will increase coherence amongst network partners and enhance knowledge sharing.
- Ç Integrating information systems will also improve knowledge sharing.

To incentivize regional knowledge sharing

The following steps would be essential:

- Ç Providing feedbacks and technical support in knowledge sharing by a national or local platform at the regional level.**
- Ç Sharing examples of knowledge integration incentivizes knowledge sharing as it will be motivating for the respondent to know how the knowledge shared has helped implementation of a specific project.**

To incentivize regional knowledge sharing

The following steps would be essential:

- Ç Identifying best practices at the regional forum and publicizing them in the region will promote members to share their experiences and best practices for greater visibility of their efforts.
- Ç Awards could be given to acknowledge outstanding local or national knowledge sharing efforts at regional level.
- Ç Introducing concept of Knowledge Currency Units (like earning points on a credit card) for rewarding active contributors through gifts in the form of books, prizes etc. could incentivize regional knowledge sharing.

THANK YOU
